A school museum is an integral part of a school history. It contains information about <sup>outstanding</sup> pupils, teachers, events, local historical places and, of course, the way <sup>our</sup> school is <sup>and gives to</sup> developing.

Our school museum is not big but suppose to be one of the most interesting places at gymnasium. There are a lot of things from USSR, pupils' photos and articles about them and the history of school.

However, we do not use it effectively. A lot of books are waiting for their "star time" in bookcases. What is more, ~~so~~ pupils know the museum <sup>just</sup> as a place in their school, they do not have any interest in searching for information <sup>re</sup> there.

I want to give some recommendations about how to increase public access. Firstly, we must have excursions in the museum to draw pupils' attention. Secondly, teachers have to show how the past connects with nowadays in our city. Thirdly, ~~our~~ our region is full of interesting places and things, so pupils may bring something they have to the museum to share with each other.

In conclusion, I want to say that history ought to be interesting <sup>for</sup> to active people who consider to leave a footprint in the world. There is no future, if you do not know the past.

## Part 5

### Writing

Our school museum is a place with a lot of information about the history of our town and many objects of our town's past.

The museum is a middle-sized room with a lot of drawers, shelves, <sup>we</sup> drawers, tables and paintings. There are old things like telephones, newspapers, past children's toys etc.

The room has a couple of big windows with the view of our town's old street.

However, despite having and including a lot of useful information, our museum is not really popular even among the students, and that can be explained.

Firstly, the museum is really old, it doesn't look presentable and new enough. Secondly, it is in the part of our school that is a little far from the classrooms.

There are two recommendations on how to increase access to the museum. The first recommendation is the

repairing of its furniture. The second recommendation is the moving the museum closer to the classrooms where are a lot of students.

As conclusion I have to say that our museum is actually a really nice place where you can find a lot of entertaining information. It just needs a little renovation,

and after this the museum will become interesting not only for students, but also for their parents and others.

Report for School.

I think see, that our ~~school~~ beautiful school has a large amount of information and objects in ~~our~~ museum, but I realized <sup>?</sup> that it's not used effectively by the students.

We have beautiful school museum. Every student can see our achievements, people, who studied in our school and became a military soldiers, who protects our beautiful country. ~~First part I say~~ We have many achievements in our museum. Most of them for sports competitions. like basketball, <sup>or</sup> soccer, but we don't have volleyball achievements. Now, we have good basketball team and trying <sup>we</sup> to win some trophies. Also we have time capsule 2016-2025 and I ~~think~~ hope to see what past students wrote in twenty-sixteen years.

I think they're not using by students because it that's not interesting to them. They are busy by their lessons, <sup>same</sup> or something like that, but I think it's needs to be known because it's our history, history of our school.

Also we can do lessons for our students about this museum <sup>?</sup> ~~of~~ to be the part of it.

In conclusion I want to say that history is important. History of our country, ~~trist~~ family and school. We need to know it and we can take some motivation from it. Умново 47
